VOLUME CVI.---NO. 55. ALEXANDRIA, VA., MONDAY EVENING, MARCH 6, 1905. PRICE 2 CENTS.

The Song of the Cradle.

Bye, bye! Hope rises high:
There's a sweet little cradle hung up in the sky;
A dear little life that is coming to bless;
Two soft chubby hands that will pat and caress;
A pure little soul winging down from above;
A darling to care for, a baby to love.

One of the grandest agencies which enlightened Science has discovered to relieve motherhood from excessive suffering is the "Favorite Prescription" devised by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y.

This wonderful "Prescription" imbues the entire nervous system with natural, healthy vitality; gives elastic vigor to the delicate organism specially concerned in motherhood, and makes the coming of baby entirely free from danger and almost free from pain.

"I wish to state that I have used Doctor Pierce's Favorite Prescription with very good results," writes Mrs. Katie M. Annis, of Hudson, New Hampshire. "Had been in poor health for over four years and had been twice in the hospital. My husband brought some of your 'Favorite Prescription,' and it has carried me easily through my last two confinements. We are now blessed with two healthy children, and I am sure your medicine has done me more good than all the other treatment I have ever received."

BAD HEADACHES generally arise from bad stomachs. Foul breath, bitter taste, coated tongue, sour eructations or belching of gas, are common symptoms though not all present in every case. To cure, take small doses, only one or two each day, of old Dr. Pierce's Pleasant Pellets, the Original Little Liver Pills, first put up by him over 40 years ago. One or two a laxative, three or four cathartic.

THE PEOPLE ALL.

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

HICK'S FOR MARCH.

The first marked disturbances for March will be central on the 3rd, 4th and 5th—high temperature, low barometer, with rain and high winds on and touching the 5th, with probabilities that continued cloudy, threatening, sleety conditions will continue into the regular storm period following. A rapid reaction to warmer will set in about the 7th, followed by falling barometer from western extremes, ending in general storms of rain, sleet and snow from 7th to 12th. Our little globe passes a magneto-electric crisis on and about March the 11th each year. This fact always increases the probabilities of storms, tidal waves and seismic perturbations about this time Severe boreal storms with a March cold wave need not surprise any one from about the 11th to the 14th. The 15th to 17th will bring a marked storm period, culminating in low barometer, rising temperature and general storm conditions, ending in wide areas of rain and snow. Another high barometer and March cold wave may suddenly slip in from the northwest from about 17th to 19th, but it will give way as suddenly as it came, and the most general and violent storm conditions of the month will appear during the storm period immediately following.

This storm period is from the 19th to the 24th, being at its center on the 21st. The indications are that tropical storms and hurricanes will reach the extreme parts of our south country about the 19th to 22nd, that rain and high winds turning to snow and very cold for the season, will meet the tropical, equatorial storms from the northwest. A severer March blizzard over much of the country northeast, is among the probabilities at this period.

A reactionary storm period will be central on the 27th, 28th and 29th. At this time the temperature will rise decidedly, the barometer will fall progressively from west to east, and general storms of rain and wind, turning to snow in the north, will pass eastwardly across the country, all followed by another decided rise of the barometer, northwesterly winds and much colder. The month will not bring a maximum of cold, but much precipitation in the form of rain, sleet or snow will occur, with disagreeable fluctuations of temperature, an unsteady state of the barometer, and some furious storms.

RULES FOR LENT.

Lenten regulations in the Archdiocese of Baltimore, as prepared by the direction of Cardinal Gibbons, are as follows:

1. All the faithful who are have completed their twenty-first year, unless exempt by dispensation or some other legitimate cause, are bound to observe the fast of Lent.

2. They are to make one meal only a day, except on Sundays.

3. A small refreshment, commonly called collation, is permitted in the evening.

4. The following persons are exempt from the obligations of fastening: Persons under 21 yearsof age, the sick, nursing women, those who are obliged to do hard labor and those who, through weakness, cannot fast without great prejudice to their health.

5. The faithful are reminded that, besides the obligations of fasting imposed by the church, this holy seasen of Lent should be, in an especial manner, a time of earnest prayer, of sorrow for sins, of seclusion from the world and its amusements and of generous almsgiving.

By virtue of an indult to the United States, dated August 3, 1887, and renewed for 10 years, May 25, 1897, the following special dispensations are granted:

1. The use of flesh-meat is permitted at all meals on Sundays and once a day on Mondays, with the exception of the second and last Saturdays of Lent. But fleshmeat and fish are not to be used at the same meal during Lent, even on Sundays.

2. The use of butter, cheese, milk and eggs is also permitted every day in Lent.

3. It is allowed to take in the morning some warm liquid, as tea, coffee or thin chocolate, made with water, and with this liquid a mouthful of bread.

4. Those for whom the hour of noon may be an inconvenient time for dinner may invert the order and take their collation in the morning and their dinner in the evening.

5. The use of hog's lard or drippings, instead of butter, is authorized in preparing permitted food.

6. Persons exempt from the obligation of fasting are free to take meat more than once on those days when its use is granted by dispensation.

Inflammatory Rheumatism Cured.

William Shaffer, a brakeman of Dennison, Ohio, was confined to his bed for several weeks with inflammatory rheumatism. "I used many remedies," he says. "Finally I sent to McCaw's drug store for a bottle of Chamberlain's Pain Balm, at which time I was unable to use hand or foot, and in one week's time was able to go to work as happy as a clam." For sale by Gibson & Timberman and W. F. Creighton & Co.

THE TURN OF LIFE

A Time When Women Are Susceptible to Many Dread Diseases—Intelligent Women Prepare for It. Two Relate their Experience.

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason.

Every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, the tendency is at this period likely to become active—and with a host of nervous irritations, make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness, are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected.

These symptoms are all just so many calls from nature for help. The nerves are crying out for assistance and the cry should be heeded in time.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system. It has carried thousands of women safely through this crisis.

For special advice regarding this important period women are invited to write to Mrs. Pinkham at Lynn, Mass., and it will be furnished absolutely free of charge.

Read what Lydia E. Pinkham's Compound did for Mrs. Hyland and Mrs. Hinkle:

Dear Mrs. Pinkham:—

"I had been suffering with falling of the womb for years and was passing through the Change of Life. My womb was badly swollen; my stomach was sore; I had dizzy spells, sick headaches, and was very nervous.

"I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me and I have passed safely through the Change of Life, a well woman. I am recommending your medicine to all my friends."—Mrs. Annie E. G. Hyland, Chestertown, Md.

Another Woman's Case.

"During change of life words cannot express what I suffered. My physician said I had a cancerous condition of the womb. One day I read some of the testimonials of women who had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it and to write you for advice. Your medicine made me a well woman, and all my bad symptoms soon disappeared.

"I advise every woman at this period of life to take your medicine and write you for advice."—Mrs. Lizzie Hinkle, Salem, Ind.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Hyland and Mrs. Hinkle it will do for any woman at this time of life.

It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, MAR. 6, 1905.

THE CONGRESS which closed on Saturday has been remarkable chiefly for what has not been done. No important legislation of any kind has been enacted into law. It didn't revise the tariff; it didn't provide for the regulation of freight rates; it didn't open free trade with the Philippines and it killed the arbitration treaties, pure food bill and the statehood bill. But the leaders say the way has been prepared for action of the utmost public interest in the next Congress. The House stands committed to the President's policy of corporation regulation, and the line between those who stand with the President and those who oppose the reforms he would inaugurate has been clearly drawn. The public understadds who are its foes in the national legislature, and should keep a watch upon them. While no decisive action of any kind has been taken, the session just closed afforded opportunity for the preliminary skirmishes between the champions and the enemies of the public interest in which skirmishes the "stand patters" won out, and though they were forced to make promises, no one need be surprised it at the end of the next session the "President's policies" are no nearer being adopted than they are today.

IN OPPOSITION to the large and unnecessary increase in the navy and the extravagant appropriation therefor made by Congress last week, the Philadelphia Record says:

Germany and France are running a battleship race for naval superiority. Our strenuous Executive itches to join in the contest. France and Germany are adjoining countries and hereditary rivals. Neither of them is dangerous to the United States, protected from their attack by an intervening ocean and prodigious natural defensive strength. Only absurd fear should lead the Yankee nation to participate in such a rivalry. There was solid truth as well as sharp sarcasm in the declaration of Senator Hale in discussing the naval appropriation bill recently when he said: "The principal object of a big navy in time of peace is to bully small powers."

WHEN the railroad rate bill passed the House almost unanimously the vote was recorded under a call of the yeas and nays—a proceeding that was quite unnecessary. The members wished in this way to persuade their constituents of their great regard for the public interests, while they neither expected nor intended that the bill should become a law, knowing that the Senate would smother it. But when the navy bill, carrying an appropriation of $100,000,000, was passed they refused to call the yeas and nays, and were counted by tellers. They were not certain about the wisdom of the navy bill, and in view of the vacilations of public opinion they were not at all desirous of making a record that one day might rise up against them.

TO KEEP the President in good humor the Senate passed a resolution directing its finance committee to make an investigation of customs and international revenue taxation with a view to such modification and revision as may be deemed proper. This will give an opportunity to gather information for the future use of Senators, both in favor of and against the policy of revision. As the House alone is empowered to originate revenue legislation the move would be of greater public interest if it had been undertaken by the ways and means committee of that body. The appointment of commissions, however, is only a means of dallying. There will be no tariff revision in the public interest until the people themselves elect a democratic congress.

THE public schools of this city are maintained at a great expense to the taxpayers. They are conducted for the education of the youth, yet today dozens upon dozens of boys, who should have been in school, could be seen on the streets along the line of the electric road making disgusting exhibits of themselves in scrambling for pennies thrown to them out of the car windows by strangers passing through the city, and not a policeman could be seen to put a stop to this unseemly behavior. Strange as it may appear, there were more white than colored boys in these gangs. The parents of these boys evidently do not appreciate the efforts made to educate their children.

THE TWO most important bills that failed in the last hours of Congress were the statehood bill and the canal zone bill. Both of them expired in conference, as the result of a disagreement between the two houses. The failure of the canal zone bill leaves the present canal commission in office, and it is understood the President will exercise his executive authority and remove Admiral Walker and probably other members and "run" the commission to suit himself.

PRESIDENT ROOSEVELT, it is now said, intends to appoint Charles W. Anderson, colored, Collector of Internal Revenue in New York in place of Charles H. Treat. The salary is $4,500 a year. This movement on the part of the President, it is suggested, is intended to refute the assertion that he would not appoint a negro to a prominent position in a northern State when he attempted to foist Crum upon the people of Charleston as collector at that port.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., March 6.

The inaugural festivities of 1905 will wind up this evening with a blast from the Marine Band, a chorus of 500 voices and a blaze of 10,000 electric lights in the great hall of the Pension building. It is estimated that at least 100,000 of the 150,000 strangers who were here for the celebration have already departed. The concerts at the Pension building this morning, afternoon and evening will be attended principally by the residents of Washington and those of the visitors who have enough time at their disposal to linger for an extra day or so to view the sights of the capital. Before the last strains of the last number on tonight's concert programme die, an army of workmen will be dismantling the decorations. All haste will be made so that Uncle Sam will not lose any more money than is absolutely necessary by reason of the idleness of the Pension clerks who have been enjoying a holiday with full pay during the time their workshop has been devoted to the public. The hotel lobbies are resuming their normal aspect and the haughty clerks behind the desks are almost civil to the stranger who asks for accommodations. Carpenters are taking down the stands along the line of march and the lumber out of which they were constructed is being almost given away. Rooms with windows upon the avenue which rented on Saturday all the way from $10 to $800 each, may now be secured for less than what the visitor was called upon to "give up" for a square meal on Inauguration Day. A few of the State guardsmen are still in town, young men for the most part who defied their commanding officers by refusing to leave with their comrades, and before night it is quite probable that these left overs will have been corraled and packed off toward home. It should be recorded to the credit of the militiamen that they behaved as a whole most admirably while in Washington. Four years ago riots, fist fights and looting were reported in every quarter of the city. The Pennsylvanians were the chief offenders on that occasion and the Keystone State was called upon to pay several thousand dollars in damages for the property her men destroyed. For a few hours yesterday morning two or three companies of Pennsylvania guardsmen made things lively down on Pennsylvania avenue, but the trouble was of short duration. A few unoffending colored men were made to dance for the amusement of the soldiers and three or four Italian vendors were "rushed" and made banana less in a short time. One policeman who made an arrest for a small hold-up of this sort came to grief, the companions of the man arrested swooping down upon the bluecoat, and standing him upon his head in a jiffy. But the citizens at large had no complaint to make and now nothing is heard but praise for the troops who came, the officials who managed the collossal programme and the weather which joined to pay homage to "Roosevelt Luck."

The first day of President Roosevelt's new administration began officially at 9:30 a. m., with a little talk over State Department matters with Secretary Hay. Then began a rush of handshakers which was kept up at the office building until the President went to lunch at 1:20. Every member of Congress brought his visiting friends with him in crowds of all sizes. Senators who up to last week were too busy to give anyone more than a minute or so of their time, came to the White House followed by large delegations. A line of "plain people" that had no Congressional escorts and therefore could not get in, soon began to form out in front of the President's office and grew with each minute until it extended to the Pennsylvania avenue gate. Many hundred strangers called at the front door of the White House in the vain hope of seeing the President but were referred to the little building to the west where they learned that he was "too busy to receive."

It has been discovered by the War Department that although possibly intending to do so, the House did not act upon the joint resolution, extending until the termination of the next Congress the terms of the present law under which the isthmian canal zone is governed. Secretary Taft however, has decided that he can continue to administer the affairs of the canal zone.

Louis Philip Wolf, editor of "Die Sonne," a German paper of Peoria, Illinois, has been agreed upon as Consul to Trieste, Austria. He is a member of the Roosevelt League of German Americans. He was endorsed by Representative Graff, of Illinois, and Representative Bartholdt, of Missouri.

Minister Barrett at Panama cables the State Department that a convention has been signed between Panama and Costa Rica, settling the boundary dispute.

The Supreme Court today in the case of the Harriman interests vs. the Northern Securities Co., affirmed the decision of the Circuit Court allowing the distribution of the railway shares in the possession of the Northern Securities Co. along the lines defended by the Northern Securities Co. This is a final defeat for the Harriman interests and a victory for the Hill interest. Chief Justice Fuller made the announcement stating that the opinion of the court be printed. The decision allows the desired prorate distribution. A decree was also entered denying the motion of J. Hamilton Lewis to intervene on behalf of the Continental Securities Co., which holds 5,000 shares of the stock.

While no definite action was taken by the foreign relations committee of the Senate this morning on the Santo Domingo treaty, there was enough developed to indicate that there will be a very bitter earned fight made against its ratification. Senators Morgan and Bacon, of the democratic side, and leading the opposition, will offer several amendments. Senator Spooner also indicated that he could not support the treaty in its present form.

All is in readiness for the trial of Mrs. Cassie L. Chadwick in the federal courts at Cleveland, Ohio. It is scheduled to begin at 9:30 before Judge R. L. Tayler. Mrs. Chadwick, her attorneys say, is ready for the ordeal. The jury was completed today.

President Roosevelt Saturday turned a deaf ear to the advocates of an amendment to the existing smoke law in the District of Columbia and declined to sign the bill passed by the House and Senate in the closing hours of the session changing the existing law.

Mr. Andrew Carnegie arrived in Cleveland Saturday night in response to a subpena to appear as a witness in the trial of Mrs. Cassie L. Chadwick, which opens in the federal court today. The trustee of the Chadwick estate showed the $5,000,000 note to Mr. Carnegie, who wrote his signature, so that the difference between the genuine and that which appeared on the note might be seen.

Senator William B. Allison, of Iowa, Saturday completed his forty-second year of continuous service in Congress, eclipsing all records in that respect. A week ago he passed the record established by Senator Sherman, of Ohio, for continuous service in the Senate. Only two men now in the higher chamber were members when Senator Allison took his seat—Stewart, of Nevada, and Mitchell, of Oregon—and neither has had continuous service since that time.

The funeral of Dr. Samuel McGill, son of the late Dr. Thomas McGill, of Frederick City, Md., who died Wednesday at his home, in Schuyler, took place Saturday from St. James' P. E. Church Leesburg. The rector, Rev. J. W. Morris, officiated. Dr. McGill was 63 years old and served in the Confederate army, and practiced medicine in Leesburg for many years.

KUROPATKIN IN PERIL.

The Japanese have rounded both flanks of Kuropatkin's army. Oyama's base is on the Shakhe river, with his right reaching east of Fushun and his left west of Mukden. He has captured great quantities of Russian stores and many important positions.

For seven days and nights the mighty conflict has continued almost incessantly the Japanese forcing the fighting and gaining steadily.

A terrific artillery duel continued all day Sunday westward of Mukden, the Japanese shells exploding within three miles of the Chinese imperial tombs. On Saturday the Japanese advance guard was within five miles of Mukden Station Kuropatkin attacking the Japanese center, while Oyama's army is stretching around the Russian flanks.

The Russian main line of strong defenses eastward of the railroad, along the Shakhe, is under a heavy bombardment. Kuropatkin has a large force there, which is in danger of being cut off.

General Kuroki defeated two Russian divisions beyond the Hun River, inflicting terrible slaughter, and General Oku turned the Russian right flank completely, the Russians fleeing in disorder, pursued by the Japanese.

Japanese estimates of Kuropatkin's forces between the Shakhe and Tie Pass give a total of 400,000 men and 1,504 guns. With the troops at Vladivostok and other garrisons the Russian forces number 700,000 men.

Plans New Electric Line.

The subscription books of the Winchester and Washington Electric Railway Company, which is to construct an electric line to Bluemont, Loudoun county, and thence via Alexandria to Washington, were opened in Washington Saturday. One hundred thousand dollars' worth of stock will be sold. Of this amount $50,000 was subscribed Saturday. Work on the road will be begun within a short time, but the route it is to take from Winchester to Loudoun county has not yet been determined upon.

A Destructive Fire.

To draw the fire out of a burn, or heal a cut without leaving a scar, use Dewitt's Witch Hazel Salve. A specific for piles. Get the genuine. J. L. Tucker, editor of the Harmonizer, Centre, Ala., writes: "I have used DeWitt's Witch Hazel Salve in my family for piles, cuts and burns. It is the best salve on the market. Every family should keep it on hand." Sold by all druggists.

AFTERMATH OF INAUGURAL.

The throng of visitors who had come to Washington for the inaugural made Saturday night was a noisy and jolly one. Hardly had darkness fallen when Pennsylvania avenue and the adjoining streets became well-nigh impassable. At the conclusion of the parade a rush was made on the hotels and eating houses, and every place where meals could be had was crowded to overflowing. As early as 6 o'clock thousands had stationed themselves at points where a good view of the fireworks could be had, while others took seats in the reviewing stands to watch the passing throng. The sidewalks were insufficient to accommodate the throng of pedestrians, and many took to the middle of the streets.

Members of visiting political clubs, military organizations, and others formed themselves into temporary marching clubs and paraded up and down the streets, singing songs, blowing horns and giving ear-splitting yells. Students of the various colleges gathered in groups and made the air resound with their college cries. About 9 o'clock when the fireworks display was at an end the already big throng on the avenue was greatly increased. At the junction of Pennsylvania avenue and Fifteenth street the congestion was so great that for fully fifteen minutes the streets were blockaded.

Thousands of men and women were gathered there, pushing in every direction in an effort to force a passage. Several women were overcome before the crowd began to move in an orderly manner, and they were carried away fainting. One of the sightseeing automobiles got tied up in the throng, and had to remain there until the crowd thinned out.

Many of the visiting bands marched up and down the streets, giving free concerts.

Thousands of people visited the Court of History to view the illuminations. More than 8,000 incandescent bulbs burned for several hours during the evening, making two blocks from Fifteenth to Seventeenth street brilliant with their rays. The lights were strung along the eaves of the reviewing stands, and in the center of each of the four sets of pillars at the corners of the court an arc light and smaller lamps were hung. A line of lights hung on three sides of the reviewing stand used Saturday by the President, and a string of them was suspended across Madison Place, thus making the chain complete. The lights between the pillars disclosed the beauties of the draped female figures placed there, while the strings of lights passing along the line of the statues of Jackson, Monroe, Livingston, Bienville, Marquette, Clark and other great characters who are represented by them, made them even more attractive than they are in the daylight.

A 11 o'clock the crowds began to go home, worn out and sleepy from the day's excitement, and the street cars became jammed with passengers. Midnight saw many persons still on the streets, and it was not until near daynight that the main thoroughfares became clear of people. With the small hours the lights faded, and the citizens rested from their months of labor. Grandly had the District of Columbia entertained the nation.

THE FIRE WORKS.

A great mass of people filled the ellipse south of the White House at night and viewed the display of fireworks. The pyrotechnic display—a spectacle of dazzling brilliancy—gorgeous in color effect and pleasing to behold—was one of the most elaborate ever undertaken in Washington on any similar occasion. For more than an hour the air was filled with whirlwinds and streaks of fire, showers of vari-colored sparks and bursting bombs creating beautiful effects. The Washington Monument was the objective point of powerful searchlights, adding materially to the ever-changing scene. In another direction was the White House, which was illuminated throughout the diplay. President Roosevelt and his family viewed a portion of the display from the south windows of the White House.

First was the President's salute. Twenty-one aerial maroons bursting with terrifi report high in the air constituted the salute. This was followed by a grand illumination of the White lot, with powerful colored lights changin hue five times.

Another honor shown the newly-installed President was the displaying of a colossal fire portrait of himself with the inscription, "Our President," beneath it, flanked on either side with national emblems and the names of the various foreign possessions.

A unique novelty was produced by a mammoth shell which, at a heighth of one thousand feet, released a large bomb, with red, green, blue and white stars, followed by a gold shell representing Cuba, and a silver shell for Porto Rico, finishing with a number of smaller shells for the Philippines.

An immense bouquet of American Beauty roses burst forth as a set piece, changing into a portrait of Mrs. Roosevelt, shot into the air.

The display concluded with the flight of 350 colored bombs. At times the bursting of shells gave the idea of a sham battle.

The fireworks exceeded all previous displays. There were no ordinary pieces. Rockets with their dangerous sticks, were discarded. The set pieces were of large dimensions—such as a wheel more than a hundred feet in diameter a presidential piece two hundred feet in length, and a national flag three hundred feet long carried up a thousand feet by balloon, and there developed in the sight of the city—and beyond. A clouded sky added to the success of the fireworks programme.

THE BALL.

The inaugural ball in the Pension Building concluded the festivities of the day.

The decorations of the ball room most successfully conformed to the agreement that every inauguration should exceed all previous efforts. All was accomplished that could be effected by extended masses of color, spreading about and over the immense room and its galleries, with miles of evergreen vines, carloads of cut flowers, flags in artistic combinations, electric lights by the thousand upon thousands, and electric pieces large and small, with one of unrivalled proportions carrying 6,000 lights of varied colors woven into a most beautiful design.

The instrumental music and the trained orchestra of 500 voices filled the vast building to its remotest recesses, with the perfection of musical attainment.

Every nation in the civilized world, every States in the union, every branch of the military establishment of the United States, was represented among the 12,000 persons present, including ing thousands of handsomely gowned women.

Shoulder to shoulder stood diplomats gorgeous in the court costumes of their countries: blue and gold warriors of the army and navy and uniformed cadets of both branches of the services.

The setting for the hall was beautiful with a riotous wealth of color in flowers, evergreens, lights and plants.

The ball opened formally at half past 9 o'clock with the arrival of President and Mrs. Roosevelt and party and the Vice-President and Mrs. Fairbanks.

As the President and Mrs. Roosevelt reached the grotto in the center of the ball-room, they paused and, facing their box, saw beaming upon them their children, Miss Alice Roosevelt, Theodore, jr., Ethel, Archie and Kermit, Roosevelt. They waved to them and smiled a most affectionate greeting. Completing their promenade, the presidential party ascended the stairway and entered the President's box.

The inaugural gown of Mrs. Roosevelt was of pale electric blue satin, made with a train and decollette with short puff sleeves. Mrs. Roosevelt wore in her hair a pale blue plume, and carried a beautiful bouquet of orchids and lilies of the valley. Around the neck of her gown was rare old point lace and she were a magnificent necklace of diamonds.

Mrs. Fairbanks wore a gown of white satin duchesse, the fabric being richly embroidered at intervals with roses of gold in the natural size of the flowers, the graceful folds of the full-trained skirt showing to advantage the beauty of this unique design.

Among the other gowns which attracted most attention was that of Miss Roosevelt. It was of white satin made with train. The tails of the white satin coat extended to the edge of the train. In the back the dress was made princess, and in front the coat was cut short like a zouave jacket. The jacket opened on a bodice of cloth of gold, and the skirt, which was cut full, was of cloth of gold, veiled with real lace net.

Attempts were made at dancing during the evening, but the crowds interfered greatly. At half past eleven the President left, and the festivittes stopped about midnight.

in deference to the Sabbath, all ceremonies stopped at midnight, but it was well toward morning before the lights were turned down on one of the most brilliant spectacles that Washington had seen in its long line of notable occasions.

While thousands of visitors to the inaugural ceremonies left the city Saturday night and yesterday, other thousands remained to view the sights of the National Capital over Sunday. The day was fair, but the air was sharp with frost, making overcoats comfortable. Washington's guests embraced the opportunity to see the city throughly. "Seeing Washington," automobiles and street cars were thronged to their capacity, and the principal throughfares of the capital were congested with humanity throughout the day. It was remarked by old Washingtonians that this was the first inauguration period for 30 years when the weather had been so uniformly pleasant for so many successive days.

President Roosevelt spent Sunday at home. Great throngs hung about the White House expecting him to go to church, but he was dissuaded from doing so, being convinced the crowd of curious people would make an embrassing demonstration. In the evening he took a horseback ride. Vice President and Mrs Fairbanks attended service yesterday morning at their usual place of worship, the Metropolitan Methodist Episcopal Church at the corner of C street and John Marshall Place.

There are various estimates of the crowds that were in the city Saturday, Chairman Weller, of the committee on public comfort, gives an estimate of 145,000.

Attacked by a Mob

and beaten in a labor riot, until covered with sores, a Chicago street car conductor applied Bucklen's Arnica Salve, and was soon sound and well. I use it in my family," writes G J. Welch, of Tekonsha, Mich., "and find it perfect." Simply great for cuts and burns. Only 25c at E. S. Leadeater & Sons' drug store.

Ellyson in the Race.

Mr. J. Taylor Ellyson, who has for many years been chairman of the democratic State committee of Virginia, has reconsidered his determination not to run for the office of lieutenant governor. Saturday night he gave out the following statement, in Richmond: "Some weeks ago my name was publicly mentioned in connection with the democratic nomination for lieutenant governor. I gave the matter consideration and authorized the announcement that I was not a candidate. Since that time, however, there have come to me from every section of the commonwealth such earnest requests that I have reconsidered my action, and feel it to be my duty to favorably respond. I therefore announce myself as a candidate for lieutenant governor and solicit the support of the democrats of the State in the approaching primary."

[Mr. J. R. Caton, of Alexandria, who is a prominent candidate for the office of Lieutenant Governor, is not in the city today. Some weeks ago when it was announced that Mr. Ellyson would be a candidate, Mr. Caton stated that if such should be the case he would not oppose him Later Mr. Ellyson positively stated that he would not be a candidate and then Mr. Caton entered upon his canvass with renewed vigor and received assurances of support throughout the State. Till he returns it is not known what effect Mr. Ellyson's candidacy will have upon Mr. Caton's future action.]

Letter to R. F. Knox,

Alexandria, Va.

Dear Sir: Mr. Frank Robinson, Titusville, Pa, bought Devoe with a good deal of feeling against the whole tribe of mixed paints. Our agents there, Messrs. Kernochan & Co, got him to do it. He says:

I am more than pleased with the job. I had one third of the paint left over; I know of several other jobs, a year old or more, painted with Devoe, they are wearing well.

What a pity we have to all go through the same school, to find out what paint to put on a house! Experience teaches. Isn't there any easier way to learn? Yours truly,

F W DEVOE & CO

Today's Telegraphic News

The Tug of War.

Tokio March 6.—A report received here today states that the advance guard of the Japanese on the left has captured and holds a position on the high ground four miles south of Mukden. The Japanese officials here believe that the capture of this position will make the evacuation of Mukden by the Russians necessary within a very short time, as the bombardment of the city with siege guns from the heights would be possible. The fighting is reported as continuing today unabated, and the Japanese are declared to be making further inroads on the Russian position. One report declares that the Russians are showing a lack of co-ordination and cooperation in meeting the Japanese attack.

With General Kuroki's army, in front of Mukden, undated.—The Russians are reported to be using guns of very heavy calibre, believed to be 16 inch guns, opposite Witosan, in shelling the Japanese artillery positions. The bombardment, however, is declared to have no effect. Some of the most telling work of the Japanese has been done by the infantry under cover of night. Nothing could surpass the achievement of the Japanese force Thursday night, who gained a footing across the Shahke river, and is now holding a position extending for two miles along the front, after crawling up the bare stony hills like leeches.

Advices from Mukden are to the effect that a terrific and sanguinary battle is raging which, it is believed, will be decisive by tomorrow. It is said that the losses will aggregate 60,000 men. Both armies are fighting with bulldog tenacity.

Preparing for a Strike.

New York, March 6.—Believing that a strike on the elevated lines and in the subway is imminent, the officials of the Interborough rapid transit company have imported from the west 526 men to take the places of the striking employes. Some time today 400 others will arrive, and before night 2,000 strike breakers are expected to be in readiness to work. The men were secured by "Strike-breaker" James Farley. They come from Chicago, Indianapolis, St. Louis, Pittsburg, and other cities, and it is said that every man of them is an experienced engineer or electrical worker. They have been promised, it is said, good pay, and permanent positions. The 526 men who arrived yesterday were marched to the steamer C. H. Northam, and the vessel steamed out into mid stream. Upon the arrival of the 400 men today, the additional recruits will be put on board, if room can be made for them, and again the boat will steam out in the harbor, where the men cannot be interfered with or influenced by representatives of the disgruntled employes. It is said that the attitude of the company's officials leaves little room to avoid a strike which will be far reaching and which will call out every union man, whether he be ticketchopper, guard, conductor, motorman, track worker, yard worker, engineer or what not. For weeks past General Manager Frank Hedley has known that the employes of the subway and elevated line were organizing for a general strike and he has been preparing to meet the difficulty as best he could.

The Poisoning of Mrs. Stanford.

Honolulu, March 6.—All attempts to secure the analysis of Mrs. Stanford's stomach have failed. Sheriff Henry says the chemist may not report for four or five days. He has been in close consultation with the chemists, but refuses to premit the report to be sent out. Henry, in an interview with your correspondent, says positively he did not know whether poison was found in the stomach and also declared he did not know if poison had been found in the medicine bottles or carbonate of soda. He denied he had sent a message to the San Francisco police, telling them that strychinne had been found in the soda. He said, however, that the inquest will begin this afternoon.

San Francisco, March 6.—It is said here, in spite of official details, the Honolulu police are in possession of positive evidence that strychnine was found in the soda, of which Mrs. Stadford took o dose just before her death; also that the same poison was found in the stomach and other organs.

Accused, He Shot Himself.

Malden, Mass., March 6.—Brooding over a serious charge made against him, Clement A. Feltrup, a police officer in this city, committed suicide Sunday morning by shooting himself. On Saturday a young colored girl reported at police headquarters that the night before she had been assaulted by a white policeman. She was detained until roll call, and when the officers were lined up in the station house picked out Feltrup at the first glance as her assailant. Feltrup was placed under arrest and locked up. While in his cell his mental condition became pitiful. He was bailed out about 2 o'clock yesterday morning and went at once to his home. He did not go to bed. About 9 o'clock he went to a field adjoining his house and shot himself. He leaves an invalid wife and four children.

The Yaqui Situation.

Nogales, Arizona, March, 6.—The Yaqui situation in Sonora is getting worse. The indiscriminate deportation of innocent men, women and children, continues. They are sent to the coast loaded in rotten vessels, a large portion of which never reach Yucatan. Many dead bodies of Indians are found along the coast, and it is asserted that the poor devils are dumped overboard out at sea before having time to make the trip to their pretended destination. Meantime the marauding class has not been reached. These wholesale murders of innocent Indians, it is alleged, are in behalf of a big land syndicate. Mining is dead in Senora, and millions of dollars are being lost to satisfy the greed of this big syndicate.

Russian Baltic Fleet.

Alexandria, Egypt, March 6.—The Russian Baltic fleet is reported as being seen in the Red Sea. The Russian vessels kept their searchlights freely on all passing vessels.

"The finest remedy for constipation I ever used is Chamberlain's Stomach and Liver Tablets," says Mr. Eli Butler, of Frankville, N. Y. "They act gently and without any unpleasant effect, and leave the bowels in a perfectly natural condition." Sold by Gibson & Timberman and W. F. Creighton & Co.

Rev. Cordova.

New Brunswick, N. J., March 6.—Members of the grand jury are so anxious to see Miss Julia Bowne and hear her tell of her love for Rev. J. F. Cordova, that a special request has been made of Prosecutor Berdine to be sure and have her called as a witness tomorrow when the grand jury takes up the case. Mrs Cordova will not withdraw the charges of abandonment or assault she made against her husband, but will come here early tomorrow to go before the grand jury. All of the twenty-three grand jurors will be in their seats. Cordova has told lawyer Cook that many Sunday mornings he had to go to preach without breakfast or seeing his wife and their three children. He declares he often had but a slice of dry bread and a glass of water for the morning meal. The jail fare of dry bread and coffee from a tin cup, he thinks better than that he had at home.

Mrs. Bowne visited the jail this morning and begged her daughter Julia, to return home with her. She acted toward her as she did to her father last night, and refused to go with her.

Anti-Semite Outbreaks.

Berlin, March 6.—Prominent Jews here have received word that there have been a number of anti-semitic outbreaks in various parts of Russia in the last few days. The outbreaks, it is stated, are the result of the policy of the government in diverting the popular passions against the Jews. In Minsk, it is reported that a mob of 3,000 fired all the houses in Rakouskyaja street and plundered the Jewish shops. In the Mischniji bazaar, the report declares, many Jews were stabbed by the rioters. The rioting has continued for three days, and the casualties are estimated at ten killed and 518 injured. Many Jews have been left destitute as the result of the attack upon them. A similar out break is reported to have occurred in Duensburg where drunken reservists plundered and assaulted the Jews. A merchant named Gluerckmann is reported to have stopped the baiting of the Jews by bribing the rioters. At Vodka the casualties are reported to be three killed and 168 injured.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

WEATHER PROBABILITIES.—For this section rain or snow tonight; light to fresh northeasterly winds.

Visitors to the City.

Alexandria swarmed yesterday with strangers who came to visit various points of interest, and many attended services at Christ Church. They were mostly persons who had gone to Washington to witness or participate in the inaugural ceremonies, and, like all tourists who visit the capital of the country, indulged in a side trip to Alexandria and Mount Vernon. The electric trains transported many people during the day and night. The weather was fair and pleasant. A large number of strangers were also in the city today, and the electric trains for Mount Vernon were crowded. Christ Church, the Carlyle House, Alexandria-Washington Masonic Lodge, the Marshall House and other places of interest were visited by many strangers.

Fires.

There was an alarm of fire about six o'clock Saturday evening caused by a burning chimney on Columbus street, between Duke and Wolfe. The department responded, but the apparatus was not put into service.

The alarm about ten o'clock at night was caused by a burning stable on the west side of Fayette street, between King and Prince. The department soon reached the scene and subdued the flames. The fire for a time caused considerable anxiety in the neighborhood, as sparks were blown upon many residences, but the prompt work of the firemen soon allayed all apprehension. The fire is believed to have been of incendiary origin.

Police Court.

[Justice H. B. Caton presiding.]

There was a large number of cases on the docket of the Police Court this morning, the result of two days' work of the dragnet, as there was no session of the court Saturday. The parties whose names appeared on the blotter were charged with various misdemeanors. Some had been disorderly on electric cars, others had violated the law providing for the separation of the races in the same; there were alleged wife-beaters, assailants and a percentage of drunks. Several forfeited their collateral by failing to appear, and the other cases were disposed of in a proper manner.

Entertainment.

A unique entertainment will be given tonight, at 7:30 o'clock by the Allison W. C. T. U. for the benefit of the Children's Home at the home. Admission instead of being by ticket will be by cup and saucer or plate. The china ware will be given to the home. A fine musical and literary programme will be rendered. Prof. Claybaugh is expected to be present. Light refreshments will be served. A cordial invitation is extended to the public to be present. From those who cannot attend a donation of china is solicited,

The Summers Buggy Company.

The Barnesville, Ga., News-Gazette a day or two ago contained a description of the Summers Buggy Company's plant in that place. The company has recently expanded its manufactory by the erection of new buildings for a painting department and stock room. The plant is composed of five brick structures, representing a quarter of a million of dollars, with a pay roll of $750 a week. Messrs. George L. and Chas. O. Summers, formerly of this city, compose the company.

The River.

The ice in the river is disintegrating fast, and large quantities have been massed upon the Maryland flats. The main channel is still full of chopped ice, but by the movements of the tide and the force of the wind it is affording less impediment to navigation daily.

The Norfolk steamer arrived up about on time this morning.

As has been announced, the steamer Harry Randall will leave here tomorrow morning for landings on the lower river.

Order Torn Down.

The Board of Fire Wardens have had their attention directed to the fact that an order directed to the paid members of the fire department had been torn down from the place when they had been posted in the Columbia engine house. The wardens will investigate the matter with the view to prosecute the offending party or parties. The orders were to the effect that certain objectionable persons be kept out of the engine houses.

Escorted Out of the City.

An elderly man, who gave his name as George Horner and Fairfax county as his residence, put up at the station house Saturday night. He was provided with sleeping accomodations and later informed Lieutenant Smith that he had determined to lay down life's burdens by swallowing poison. The lieutenant told him he must not commit suicide in the station house and escorted him out of the city.

Fifty-ninth Congress.

Washington, March 6.

SENATE.

Crowded galleries and a full attendance of Senators greeted Vice-President Fairbanks when at noon today he called the extra session of the Senate of the 59th Congress to order.

Senator Frye, who for years has been President pro tem., occupied his old seat on the floor. Some of the new republican Senators had to be accommodated with seats on the democratic side.

As soon as the journal of the first session of this Congress on Saturday had been read and approved, Senator Allison, of Iowa, offered the customary resolution for the appointment of a committee to wait upon the President and to inform him that the Senate was in session and ready to received any communication from him.

The Vice President appointed Senators Allison and Gorman as this committee.

Pending their visit to the President and their report, Senator Foraker moved a recess until one o'clock, which was agree to.

At one o'clock when the Senate reconvened, the special committee announced that it had performed its mission and that the President would communicate to the Senate.

A moment later, nominations and a message on the Santo Domingo treaty was received. The galleries were immediately ordered cleared and the doors closed for the consideration of the communications.

Miles Scored by Mrs. Davis.

Mrs. Jefferson Davis has written the following letter to the Savannah Press:

New York, March 2, 1905.

Editor of the Savannah Press:

Sir—Whilst I still have no recollection of having written to General Miles, the letter which he quotes not only fails to support his previous statement in the slightest particular, but, as its date shows, must have been written from the prison ship in Hampton Roads, and when of necessity I was ignorant of what was being done with Mr. Davis, who had then been only four days in the custody of General Miles.

If the letter was wrriten, subsequent events have revealed the fact that at that moment, when an agonized wife was thanking him for his apparent courtesy in answering anxious inquiries in regard to her imprisoned husband, and was commending him to the kind care of his custodian, this man, by his own showing, was contemplating the immediate subjection of his helpless prisoner to the grossest maltreatment.

If the letter be as General Miles quotes it, it only serves to put in a clearer light, if possible, his continued imfraction of the most obvious rules of veracity.

V. JEFFERSON DAVIS.

The above letter of Mrs. Davis was shown Gen. Miles in Boston Saturday night. After reading the letter carefully General Miles said:

"I will not reply to any insolent letters of that kind."

Asked whether he would comment on the matter later, he said that he would not commit himself to any possible future action, but added emphatically:

"The letter does not deserve a reply."

Mystery in Woman's Death.

The body of the woman found last Friday in Lake Michigan at the foot of 59th street, in Chicago, was identified that of Mrs. Eva Belmont, whose home is said to have been in Milwaukee. The clue to the woman's identity was furnished by John McCarthy, of Chicago, who asserted that he had known Mrs. Belmont for sometime and positively identified the body as that of the Milwaukee woman Mystery still surrounds the death of the woman, but the police are of the opinion that they have a murder problem to solve. McCarthy said last night that he met Mrs. Belmont last Wednesday and invited her to accompany him to his brother's home, on the West Side, to spend the evening. She declined, stating that she had a previous engagement with a man named Martin to go for a drive. A conductor on one of the cars of the Calumet Electric Railway Company declares that he saw two men carrying the body of a woman in Seventy-third street on the same night and that an empty buggy was standing near the lake. To these circumstances the police have added the story of a policeman, who reported seeing a buggy containing two men and a woman driving rapidly in close proximity to Lake Michigan the same night, and it is the belief of the police officials that Mrs. Belmont was murdered and her body afterwards thrown in the lake.

Murder in Kentucky.

A dispatch from Beattyville, Ky., says the careless boast of a drunken man has brought to light the details of a harrowing crime committed in the mountain region of that State. Last October John May, a well-to-do farmer, disappeared shortly after he had married Miss Amy Flinchan. A week ago Joe Colburn, while intoxicated, is said to have declared that May would never show up again. As the result of his babbling Mrs. May, Henry Flincham, father-in-law of the missing man; Joe Colburn and his brother, Fred Colburn, were arrested, charged with the murder of May. They were examined before Judge Robinson, and were held for the grand jury without bail. The prosecution asserts that the testimony showed that the young woman had consented to the murder, and that it had been planned before the marriage. The elder Flincham declared on the stand that the Colburn brothers had been promised part of the proceeds from the division of May's estate if they wou'd do away with him, and that they agreed to do it. He then said that the Colburns seized May as he was leaving Flincham's home after a visit last October, and, tying a rope around his neck, they bound him and dragged him to the top of the cliff, where one of them broke his skull with a rock and then hurled him over the cliff into the ravine. Each of the Colburn brothers accused the other of committing the actual murder.

St. Patrick's Day Dispensation.

At the personal request of Archbishop Farley, of New York, the Pope has granted a special dispensation from abstinence to all the Catholics of the United States who are to attend celebrations and banquets on March 17, St. Patrick's day, which this year falls on a Friday.

The Pope was informed that President Roosevelt had accepted the invitation of the Friendly Sons of St. Patrick on that day, and that for the occasion many of the church officials would be present at the banquet, and therefore granted the rather unusual dispensation.

This, however, is not universal to all Catholics, but restricted to those who by reason of their office or position have to attend banquets or celebrations in honor of the Irish saint on March 17.

Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided by keeping their digestion in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." E. S. Leadbeater & Sons, druggists, sells and guarantees them at 50c a bottle.

Proper Treatment of Pneumonia.

Pneumonia is too dangerous a disease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of the grip, and by the proper treatment of these diseases a threatened attack of pneumonia may be warded off. There is no question whatever about this, as during the thirty years and more that Chamberlain's Cough Remedy has been used, we have yet to learn of a single case of a cold or attack of the grip having resulted in pneumonia when this remedy was used. It is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sanders, Ala., who is also a druggist, says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years. I use it in cases of pneumonia and have always gotten the best results." Sold by Gibson & Timberman and W. F. Creighton & Co.

A Dinner Invitation.

After a hearty meal a dose of Kodol Dyspepsia Cure will prevent an attack of Indigestion. Kodol is a thorough digestant and a guaranteed cure for Indigestion, Dyspepsia, Gas on the Stomach, Sour Risings, Bad Breath and all stomach troubles. N. Watkins, Lesbus, Ky., says: "I can testify to the efficacy of Kodol in the cure of Stomach Trouble. I was afflicted with Stomach Trouble for fifteen years and have taken six bottles of your Kodol Dyspepsia Cure, which has entirely cured me. The six bottles were worth $1,000 to me." Sold by all druggists.

Nothing will cure Indigestion that dosen't digest the food and give the stomach a rest, It isn't necessary to starve yourself in order to rest your stomach—take Kodol Dyspepsia Cure. It will digest any quantity of all the wholesome food you want to eat while your stomach takes a rest—recuperates and grows strong. This wonderful preparation is justly entitled to all of its many remarkable cures, Sold by all druggists.

There is one rational way to treat nasal catarrh: the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflammed tissue to a healthy state without drying all the life out of them and it gives back the lost senses of taste and smell. The sufferer who is tried of vain experiments should use Cream Balm. Druggists sell it for 50 cts. Ely Brothers, 56 Warren street, New York, will mail it.
